Mr. Wayne Harlan
Noacon, Inc.
P.O. Box 1360
Fairfield Bay, AR 72088

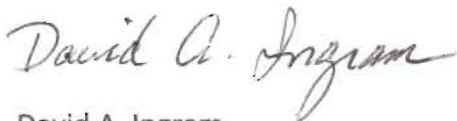

Dear Mr. Harlan,

As construction winds down on our new Batesville Service Center, I just wanted to write to let you know how pleased I am with the facility Noacon has built for us. And, it's not just me; the employees at the existing service center have told me how much they love the new facility. They are very anxious to move in.

Prior to starting the new Mountain View Service Center project in 2011, our serviceman there mentioned Noacon as a general contractor that we should consider. I am glad he did because your company did a great job with that facility as well.

Simply put, Noacon delivered to us two well-constructed service centers in a timely manner and at a reasonable price that will serve our operation in these cities well into the future. Please convey to your employees and subcontractors my sincere gratitude for the great work they did for us on these two projects. Should anyone inquire of me about your company's capabilities, I would strongly recommend that they consider Noacon as a contractor that delivers a quality product.

Sincerely,

David A. Ingram
Mgr, Real Estate Operations
